COVID-19 PROTOCOLS

Dunes Eye Consultants, Dunes LASIK Center and River's Edge Optical have developed enhanced clinical protocols to ensure all patients' visits are safe and convenient.

- For your safety, as well as that of our doctors and staff, we require masks or cloth face coverings for the duration of your visit.
- Upon arrival, your temperature will be taken, and you may be asked a few health questions.
- Hand sanitizer is available for use throughout the clinic and waiting areas, and restrooms are supplied with antibacterial soap.
- Each morning, a healthcare-grade, 24-hour disinfectant is applied to ALL surfaces and touchpoints in the clinic.
- All door handles; bathroom sinks, fixtures and switches; countertops; and touchpoints are disinfected throughout the day.
- Exam rooms and clinical equipment is cleaned between each patient.
- Pens/pencils are new or disinfected after each use.
- Waiting areas have been arranged to accommodate 6-foot social distancing requirements.
- All eyewear and frames are cleaned with a specialized UV disinfection system after each patient contact before being returned to the display rack.
